Idea section for the scroll

Thoughts/Execution this scroll will have daily updates for the site

The Lines on the scroll are where it will be cut: this scroll will have an click event to unfurl it, showing the event, and then refurl it

As of now, the text that will be on this scroll, rather than an event, would simply be a description of the site, goals with it, text stack, what have you.

Scroll fonts Fonts

Inknut Antiqua ~ Lorem Ipsum Dolor

Junge ~ Lorem Ipsum Dolor —— *likely this*

Kavivanar ~ Lorem Ipsum Dolor

Section 1 lings

Font Color: 373A3D
